

LESSON FOUR

RESOURCE 4d

This action plan is your opportunity to bullet point how you would like to take what you have learnt from ACT NOW. Remember, your role as a citizen within the global community. Your choices and actions can impact positively or negatively on the quality of life of other people. It is important to understand how and where key decisions in our society are made. It is up to you to understand and question the power of the media in this process. Lastly it is important to know about conflict locally, nationally and internationally and understand there are different and peaceful ways to address grievances.
